• promote inclusive practices and ensure the successful participation of all children at MEEC.

POLICY STATEMENT

1. VALUES
MEEC is committed to:

• acknowledging and respecting the rights of all children to be provided with and participate in a quality early childhood education and care program

• creating an environment that supports, reflects and promotes equitable and inclusive behaviours and practices

• creating a sense of belonging for all children, families and staff, where diverse identities, backgrounds, experiences, skills and interests are respected, valued and given opportunities to be expressed/developed

• ensuring that programs are reflective of, and responsive to, the values and cultural beliefs of families using the service, and of those within the local community and broader society

• working to ensure children are not discriminated against on the basis of background, ethnicity, culture, language, beliefs, gender, age, socioeconomic status, health status, level of ability or additional needs, family structure or lifestyle.

2. SCOPE
This policy applies to the Approved Provider, Persons with Management or Control, Nominated Supervisor, Person in day-to-day Charge, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of MEEC.

3. BACKGROUND AND LEGISLATION

Background
The National Quality Framework (NQF) recognises all children’s capacity and right to succeed regardless of diverse circumstances, cultural background and abilities. Education and care services must hold high expectations for the learning and development of all children, and at the same time recognise that every child follows an individual learning path and will progress in different and equally meaningful ways. Inclusion involves taking into account children’s social, cultural and linguistic diversity (including learning styles, abilities, disabilities, gender, family circumstances and geographic location) in curriculum decision-making processes. Early childhood education and care services must implement responsive, equitable, individualised opportunities and additional support whenever barriers are identified.

The NQF is underpinned by a commitment to ‘Closing the Gap’ and acknowledges Australia is a nation of great diversity, and an ancient land that has been cared for by Indigenous Australians for many thousands of years. Education and care services have a shared responsibility to support children, families, colleagues and the local community to understand, respect and value diversity.

State and Commonwealth laws prohibit discrimination based on personal characteristics, including race, age, gender, religious belief, disability or illness and parental status.

Under the Child Safe Standards, services are expected to provide environments and activities that encourage all children to participate in and celebrate their identity. The standards are underpinned by three overarching principles which require services to take into consideration the increased vulnerability of Aboriginal children, children from culturally and linguistically diverse backgrounds and children with disabilities.

The Victorian Government requires funded organisations to ensure that their policies and procedures promote equality of opportunity for all children to enable their full participation in kindergarten. A service’s philosophy should reflect the values of inclusion and equity which are supported by developing and implementing an inclusion and equity policy. Developing professional knowledge and skills, and using family-centred practice (refer to Definitions) to work in partnership with children, families, communities, and other services and agencies, will assist services to identify, include and support children with additional needs and their families.
